PRIZE MEDAL IRON SHUTTER.

BUNNETT AND CO., ENGINEERS,

ORIGINAL PATENTEES OF REVOLVING IRON SHUTTERS,

Manufactory recommend their

NEW PATENT CURVILINEAR REVOLVING IRON SHUTTER.

For which the PRIZE MEDAL of the GREAT EXHIBITION has been awarded.

This Shutter is far superior in STRENGTH, DURABILITY, and APPEARANCE to the CONVEX or any other Revolving Iron Shutter. The adoption of the terms of Bunnett and Co.'s advertisements, and the imitation of their various works, without regard to quality, has given rise to many complaints, and tended in some degree to bring such works into disrepute; many persons not being aware that there are other makers.

Bunnett and Co. have therefore made such improvements and additions to their extensive plant of machinery as will enable them successfully to compete with the lowest prices of other makers, without impairing the well-known quality of their own works, and they earnestly solicit a comparison of their New Patent Revolving Iron Shutters with any others, which will at once prove them to be the best and very much the cheapest in the end, and a saving of great and constant annoyance by their not getting out of order.
